AS FEATURED ON

### DID YOU KNOW!?... #1

The Phoenix Saloon is the birthplace of chili. Originally built in 1871, the building was home to various bars and saloons, most famously the Phoenix Saloon. It was here in 1894 that William Gebhardt (proprietor of the back room café) invented chili powder... Prior to this chili's had only ever been used fresh, but Willie devised a process for crushing and drying chili's. Moving to San Antonio he set up a factory and went into production. It was the world's first chili powder!
